## SOLDIERS LEAVE CAMP WITHOUT PERMIT

Carl Basselier and Homer McEuen, who gave his name as Charles Srone, left the U. S. Military training camp at Camp Pike, Ark., without receiving a permit, and were taken into custody here Friday night by Officer Burl Reed, after a message had been received by officers to arrest the young men. They were taken to Cassville and placed in jail to await the coming of officers from the training camp who will take them back.

McEuen gave his name as Charles Srone for the reason that Srone had received a leave of absence and is away from the camp.

## WHOOPING COUGH

This is a very dangerous disease, particularly to children under five years of age, but when no paregoric, codeine or other opiate is given, is easily cured by giving Chamberlain's Cough Remedy. Mist people believe that it must run its course, not knowing that the time is very much shortened, and that there is little danger from the disease when this remedy is given. It has been used in many epidemics of whooping cough, with pronounced success. It is safe and pleasant to take.

## HE MISSES MILLION BUT GETS AN OIL WELL

(From the Joplin Globe.)

After missing making a million dollars in the Eldorado, Ark., oil field by a margin of only a few weeks, O. B. Henry, of 915 Wall street Joplin, is getting some recompense through being a partner in an oil well brought in Friday evening, May 20, seven miles east of Virgil, Kan.

Henry, who was for a number of years one on the best known and most successful zinc mine operators in the Wentworth field, operating the Georgette mine there, is associated in his venture at Virgil with S. H. Purviance, now of Virgil but formerly of Wentworth and for some time proprietor of the principal hotel there, and Ed Rose, of Tulsa, Okla.

The well was brought in at a depth of 1,720 feet, and it was not definitely known yesterday as to the capacity but Henry was assured that it was an unusually good well, with a capacity of between 100 and 200 barrels per day. It was not a wildcat speculation, but was put down in proven territory, the men mentioned having some time ago purchased an 80-acre tract in fee. The well was drilled by the Darby Oil Company.

Henry's lack of fortune at Eldorado consisted in having owned some 3,000 acres of leases located within about three miles of the point where the first big gusher was brought in there some months ago. He had shipped a Keystone drill down to these leases, which he owned without a partner, and tried drilling, but a rotary drill was needed on account of the quicksand, and he gave up the fight and left the place, only a few weeks before the big gusher was struck. There is no question but that he would have made a million dollars or more if he had stuck it out.

Previous to this experience he had made considerable money in the oil game down near Frederick, Okla., and at Burkburnett, but expended the money mostly in different portions of the country, many of which still stand to make him rich when the oil industry comes back, as it assuredly will later on.
